## Education

### B.E in Software Engineering, QUEST Nawabshah

Current GPA: 3.95/4.0

Dec 2021 – Dec 2025

### Intermediate (Pre-Engineering), G.H.S.S Mehar Ali Jamali

Grade: A1 (96%), Board: BISE Shaheed Benazir Abad

May 2019 – July 2021

### Matriculation (Science), G.B.H.S Hassan Jamali

Grade: A (70%), Board: BISE Hyderabad

Apr 2017 – April 2019

## Skills Summary

**Languages:** C++, JavaScript, Python, PHP

**Tools:** VS Code, Git, Github, Figma, Jupyter Notebook

**Frontend Technologies:** React.js, Tailwind CSS, Bootstrap, Material UI

**Backend Technologies:** Node.js, Express.js

**Database:** MongoDB, MySQL

## Work Experience

### Full Stack Developer (MERN Stack)

Self-Employed / Freelance |  
Remote | Apr 2023 – Present

- Developed and deployed multiple full-stack web applications using MongoDB, Express.js, React.js, and Node.js
- Created responsive user interfaces with React.js and Tailwind CSS, ensuring cross-platform compatibility
- Built RESTful APIs and implemented secure authentication systems using JWT, bcrypt, and OAuth (Google/GitHub)
- Integrated AI features like OCR (Tesseract.js), image classification, and speech-to-text into real-time applications
- Used tools like Cloudinary for file/image uploads, Redux Toolkit for state management, and Passport.js for user authentication
- Gained hands-on experience with model integration (YOLO, MobileNet), data pre-processing, and real-time webcam handling
- Demonstrated ability to lead end-to-end development of scalable MERN stack applications, from designing database schemas and backend APIs to deploying responsive frontends—ensuring clean code, performance optimization, and user-focused design.
- Proven experience integrating AI and third-party services (e.g., OCR, image classification, Google OAuth, Cloudinary) into real-world applications, showcasing adaptability, problem-solving, and a commitment to building intelligent, production-ready solutions.

## Projects

### Crime-GPT (A Crime Reporting System With AI)

[github.com/Crime-GPT](https://github.com/AmjadJamali/Crime-GPT) 🔗

- A web-based platform that uses Generative AI for auto-report generation using NLP. Streamlines crime reporting and aids in investigation with AI.

- **Tools and Technologies used:** MERN Stack, NLP, LangChain, Flask, Grok Cloud, Cloudinary

#### Modern Portfolio Website (Frontend)

[github.com/portfolio.git](https://github.com/portfolio.git) 

- Designed and developed a personal responsive portfolio website showcasing projects and skills, optimized for performance and aesthetics with dark mode support.
- **Tools and Technologies used:** React.js, Tailwind CSS, Custom CSS, MUI

#### AI Healthcare Assistant (Gen AI)

[github.com/AI-health-Assistant.git](https://github.com/AI-health-Assistant.git) 

- Built a smart assistant for doctors that analyzes patient data using machine learning and generative AI to suggest potential diagnoses and treatment plans.
- **Tools and Technologies used:** Python, TensorFlow, Scikit-learn, Gen AI APIs

#### Blogify (Frontend)

[github.com/blogify.git](https://github.com/blogify.git) 

- Developed a clean and modern blogging platform UI with features like post previews, category filters, and responsive layout for blog readers and writers.
- **Tools and Technologies used:** React.js, CSS Modules, Redux Toolkit

#### E-commerce Website (Fullstack)

[ecommerce-backend.git](https://ecommerce-backend.git) 

- Implemented a full-featured e-commerce web app with user authentication, product management, and cart functionality, including secure payment integration.
- **Tools and Technologies used:** MERN Stack, Redux, Stripe API, Cloudinary

#### Advance Task Manager App (Frontend)

[github.com/task-manager.git](https://github.com/task-manager.git) 

- Created a productivity-focused task management app with features like drag-and-drop tasks, progress tracking, and intuitive user interface.
- **Tools and Technologies used:** React.js, Tailwind CSS, LocalStorage

## Certificates

---

<b>Full Stack Development</b> From: National Freelance Training Program	Jan 2004
<b>Award of Excellence</b> From: IEEEEP Centre QUEST Nawabshah	May 2022
<b>Google AI Essentials</b> From: Google	Nov 2024
<b>HTML and CSS in depth</b> From: Meta	July 2023
<b>Introduction to HTML5</b> From: University of Michigan	April 2023
<b>Programming with JavaScript</b> From: Meta	April 2023
<b>Google UX Design (Specialization)</b> From: Google	Dec 2024
