- Express.js
- Node.js

DATABASE
- MongoDB
- MySQL

PROFILE SUMMARY

As a dedicated Software Engineering student and MERN stack developer, I am passionate about creating responsive and user friendly web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, I specialize in both front-end and back-end development to deliver seamless, full-stack solutions. My objective is to leverage my technical skills, creativity, and commitment to innovation in a professional setting, contributing to impactful and efficient web development projects.

WORK EXPERIENCE

Hands-on Full-Stack Web Development:
- Developed and deployed responsive websites and applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Focused on creating seamless front-end user interfaces and robust back-end functionality.

API Integration & Real-Time Data Handling:
- Integrated third-party APIs to enhance application features and ensure reliable data exchange.
- Implemented real-time data processing for dynamic and interactive user experiences.

Responsive Design & User Experience:
- Ensured cross-device compatibility and optimized user experiences through responsive design practices.
- Delivered applications with intuitive navigation and visually appealing interfaces.

ADDITIONAL SKILLS

- C++
- Python
- Java
- SQL

LANGUAGES

- English: Fluent
- Urdu: Fluent
- Sindhi: Native

PROJECTS

- Crime-GPT A crime reporting system with AI (Full Stack)
- E-commerce Website (Full Stack) in-progress
- A Modern React Portfolio Website (Front-end)
- Authentication System (MERN)
- Personal portfolio Website using Bootstrap (Front-end)
- Weather App (Front-end)
- Blogify: A Blog Display App using Reactjs (Front-end)
- Simple Ecommerce Store with Cart Functionality using Redux Toolkit (Front-end)
- Advance Task Manager with Task categories (Front-end)
